Why I Want To Be ...

... Your Mayor

TO THE VOTERS AND CITIZENS OF ELBA: I have lived in Elba for 38 years-most every voter knows me. I want to be your Mayor because I have some new ideas that I believe will help

the City and the citizens of Elba. For several years the City has been in good hands and I believe everybody is satisfied. But we still have room in Elba for more Religion, more brotherly love and more business. That's what we must pull for to have the best town in the State.

My slogan has always been and always will be: "To treat everybody just like I want them to treat me." That gets the Religion and business in a few words. That would be done as far as my cable tow will reach. I don't care about the salary. Therefore, if

was your Mayor, 10 per cent of my earnings will be given to the Churches in Elba in around the clock payments equally, as long as I am your servant. Also the City of Elba needs a Charity Chest without cost to the City, to which 5 per cent of my earnings will go in that pot-two of the best institutions in the world to spend money for. Why I can do that-because on my present job it is law, or not go, for me to pay 40 per cent of every dollar I make the year round for tax and premiums on bonds and insurance. My books and receipts will show anyone that. That leaves me in poor shape to help anyone else that needs help. If the people will live in a way so the Lord will be satisfied, the War will end and all our folks can return home. He has the power to stop

If I was your Mayor the City Code would be my boss and I will be everybody's servant. I hope to see every voter, but if I miss anyone it will not be my intention, as I am very busy. But you are friendly and freely invited to vote for me, if I do

I would go on foot and out of the way to aid and assist any one, as far as my Cable Tow can reach, without injury to the City or any other cit-
